

# A Patient's Guide: Sharing My Record in MyCareCorner

The **Share Record** option in MyCareCorner allows you to share your health record with other people, such as a spouse, parent, or children. Sharing your record allows them to view and update your health information, depending on the level of access you give them. Access can be changed or removed at any time.

## Sharing Your Record

1. To share your health information, log into MyCareCorner.
2. On the home page, click the circle with your initials in it (upper-right corner of the screen) and select **Share Record**.

3. The Share Health Information screen is displayed. Click the **Share health information with someone you trust** button.

4. Complete the information on the screen for the person you want to share your health information with. For detailed instructions, see **Steps 5 – 9** below.

5. Enter the Recipient's Email Address, Retype the Email Address, and enter a Passcode.

*The email recipient will need to enter the passcode to accept your invitation. To protect your invitation, don't email the passcode. Use another method to communicate this information to the recipient.*

\* = mandatory field

\*Recipient's Email Address  
smith12m@yahoo.com

\*Retype Email Address  
smith12m@yahoo.com

\*Passcode  
1234 (Minimum 4 characters)

The email recipient will need to enter the passcode to accept this invitation. To protect your invitation, don't email the passcode. Use another method to tell it to the recipient. If you forget the passcode, you'll need to resend the invitation with a new one.

6. Select the Sharing Level. Options are: **Read only**, **Read and modify**, and **Custodian**.

Select Sharing Level

**Read only** Means that the person you share with can read your information. Note: Remember that you are also giving the person the right to connect applications to your record with the same access level.

**Read and modify** Means that the person you share with can read, write, update and delete information in your record. Note: Remember that you are also giving the person the right to connect applications to your record with the same access level.

**Custodian** Means that the person you share with can read, write, update, delete and share information in your record. Note: Remember that you are also giving the person the right to connect applications to your record with the same access level.

7. Select the Information Types. Options are: Share all types of information and Share only the types of information selected below.

Information Types

Share all types of information

Share only the types of information selected below

If **Share only the types of information selected below** is selected, unselect the types of information you do not want to share.

Information Types
